

ReCor Medical

Ultrasound Denervation Therapies

Data Visualization Analyst II

Department: Clinical Affairs

Reporting to: Senior Manager, Clinical Business Systems

Location: Palo Alto, CA

Workplace Type: Hybrid

About ReCor Medical

At ReCor Medical, we are pioneering Ultrasound Renal Denervation (uRDN) therapy to treat hypertension, the leading cardiovascular risk factor in the world. With our Paradise™ uRDN System, we're on a mission to provide the millions of people who suffer from hypertension with a non-drug and minimally invasive option to lower their blood pressure. Join us on our journey and make a meaningful impact on the lives of people around the globe.

Position Summary

The Data Visualization Analyst (DVA) will be someone who can look at data, metrics, stats, and be creative in providing options on how we can best visualize the “story.”

Responsibilities and Duties

The DVA must be comfortable with a wide range of stakeholders and functional teams. The job requirements may include but not be limited to the following:

- Research data and develop program review materials
- Develop and analyze metrics and visualize trends and analysis using Power BI and/or other business intelligence software.
- Develop intuitive dashboards and data visualization products using Power BI or other data visualization tools
- Other duties as assigned

Requirements

- Master's degree in (or international equivalent) in computer science, mathematics, Life Sciences, or 1 year of experience or Bachelor's degree with 2 years of experience
- Experience with data management and analysis
- Experience visualizing/presenting data for stakeholders using Power BI and/or other data visualization tools. Experience as a data scientist or relevant experience
- Experience with databases and statistical computer languages with statistical computer languages such as Python, SQL, R, etc.

COVID-19 vaccination requirements

At ReCor Medical, we care, we collaborate, we challenge, and we create. Pursuant to these core values, we are focused on the health and safety of our employees, as well as the teamwork essential for innovation of our pioneering technology.

ReCor Medical

Ultrasound Denervation Therapies

COVID19 vaccines are required for all ReCor US office employees effective June 10, 2021, as well as all new US office employees joining our company. Fully vaccinated persons are those who are ≥ 14 days post-completion of the recommended series of an FDA-authorized COVID-19 vaccine.

Equal Employment Opportunity

At ReCor Medical, we value bringing together individuals from diverse backgrounds to develop new and innovative solutions for patients. As an equal opportunity employer, we do not discriminate on the basis of race, color, religion, national origin, age, sex (including pregnancy), physical or mental disability, medical condition, genetic information gender identity or expression, sexual orientation, marital status, protected veteran status, or any other legally protected characteristic.
