

ReCor Medical

Ultrasound Denervation Therapies

R&D Intern

Department: Research & Development

Reporting to: R&D Engineer

Location: Palo Alto, CA

Duration of Internship: 3 Months

Working hours: 8 AM- 5PM (M-F)

About ReCor Medical

At ReCor Medical, we are pioneering Ultrasound Renal Denervation (uRDN) therapy to treat hypertension, the leading cardiovascular risk factor in the world. With our Paradise™ uRDN System, we're on a mission to provide the millions of people who suffer from hypertension with a non-drug and minimally invasive option to lower their blood pressure safely and effectively. Join us on our journey and make a meaningful impact on the lives of people around the globe.

Position Summary

The R&D Intern will be working with R&D Engineers, developing a bench model for evaluating the deliverability of a next generation catheter.

Responsibilities and Duties

- Develop and document test method to evaluate next generation catheter. This includes implementing fixtures, conducting experiments, ordering parts and documenting the results with GDP (Good Documenting Practices).
- Benchmark equivalent or similar catheters to next generation catheter
- Capture changes through DCO (Document Change order) process.
- Present findings to R&D Department

Requirements

- Undergraduate full-time student with at least 2 years in school, pursuing an engineering- (Mechanical or Biomedical Engineering, preferred) or science degree
- Comfortable working in a lab environment.
- Proficiency in SolidWorks and Microsoft Office suite.
- Must have good verbal and written communication skills.
- High attention to detail and organizational skills.
- Ability to operate independently or in a team.

Hourly Rate- \$18-\$25 /Hour (Commensurate with experience, skills, education and training)

COVID-19 vaccination requirements

COVID-19 vaccination requirements

At ReCor Medical, we care, we collaborate, we challenge, and we create. Pursuant to these core values, we are focused on the health and safety of our employees, as well as the teamwork essential for innovation of our pioneering technology. **COVID-19 vaccines will be required for all ReCor US office employees effective June 10, 2021, as well as all new US office employees joining our company.** Fully vaccinated persons are those who are ≥ 14 days post-completion of the primary series of an FDA-authorized COVID-19 vaccine. **This is a full-time office position.**

Equal Employment Opportunity

At ReCor Medical, we value bringing together individuals from diverse backgrounds to develop new and innovative solutions for patients. As an equal opportunity employer we do not discriminate on the basis of race, color, religion, national origin, age, sex (including pregnancy), physical or mental disability, medical condition, genetic information gender identity or expression, sexual orientation, marital status, protected veteran status, or any other legally protected characteristic.
